

Biomarker detection: Kits & Reagents

A comprehensive offer of best in class analysis tools
dedicated to biomarkers

- **Commitment to quality & guaranteed performance**
- **30 years of know-how** in biomarker assays
- **A complementary reagent range** for streamlined workflows with Bertin Instruments

Biomarker detection: Kits & Reagents

Antibodies

- Monoclonal and polyclonal antibodies
- Various host species: rabbit, mouse, sheep, goat...
- Validated for various applications (*including ELISA, Western Blot, Immunofluorescence, Immunocytochemistry and Immunohistochemistry*)
- Custom labelling available upon request

ELISA & qPCR kits

- Best-in-class assay kits for life science research labs
- Ready to use components
- Fully validated performance
- Strict quality control
- Detailed protocols, including advice on sample preparation
- Possibility of customization (384 wells, bulk packages)

Pre-analytical products

- To protect biomarkers during sample collection and preparation steps
- Matching assay kits
- Ready to use
- Customized production on request
