

# The talent of our women inspires and transforms our industry every day

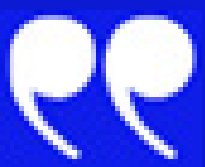

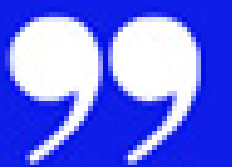

# ZOHRA

**Apprentice Application Engineer in  
Nuclear Instrumentation**

 **Bertin Instruments  
Montigny-le-Bretonneux (France)**

**Working in nuclear instrumentation means putting  
technology at the service of safety and the environment, with  
diverse and stimulating roles where women have their  
rightful place.**

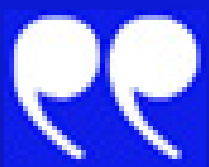

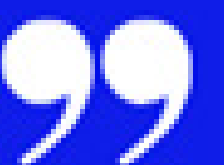

# Jitka

Physicist

 Bertin VF Nuclear  
Cerna Hora (Czech Republic)

**I chose physics at elementary school, inspired by my physicist father, and after various professional experiences, I now work in ionizing radiation, combining physics, mathematics and programming.**

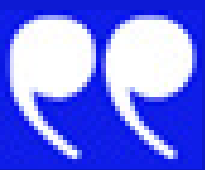

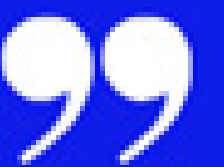

# Sandra

**Procurement and Scheduling  
Technician**

 **Bertin Medical Waste  
Dieppe (France)**

**Working in procurement means taking on daily challenges, with busy, varied days. Thanks to their organization and adaptability, women have their place in this environment.**

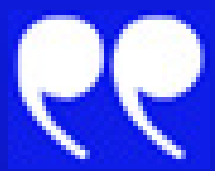

# Laurence

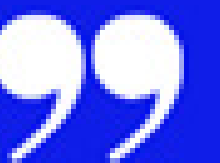

Optics Polisher

Bertin Winlight  
Pertuis (France)

**40 years ago, the first challenge for a woman was to be able to push open the door of a workshop and, above all, to get in. Fortunately, things have changed, and for the better! Because now, if you want to come and do this job, a mix of traditional polishing and numerical control, the doors are wide open to you, so ladies, don't hesitate!**

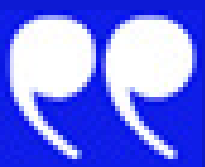

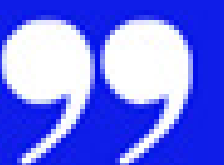

# Mandy

Health Physics Engineer

 Bertin Instruments  
Thiron-Gardais (France)

**It takes courage and determination to enforce regulations.  
Young women should choose this path if they have a taste and  
curiosity for the invisible.  
Courage and determination for a curiosity of the invisible  
through the eye.**

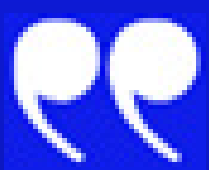

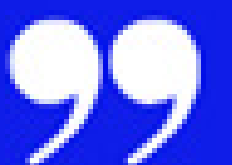

# Maria

Production Operator

 Bertin Alpao  
Grenoble (France)

**I manufacture and assemble deformable mirrors to correct optical aberrations in real time, requiring meticulousness, precision, dexterity and patience.**

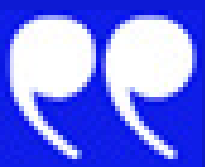

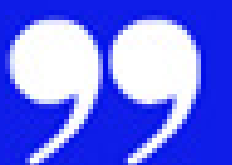

# Céline

**Business Unit Director**

 **Bertin Instruments  
Aix-en-Provence (France)**

**There are so many wonderful technical and scientific career paths for women, and I'm proud to contribute to the development of a European industry.**

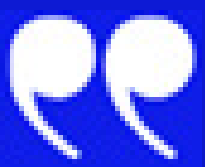

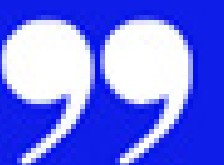

# Sabrina

**Back Office Manager**

 **Bertin Instruments  
Fontaine (France)**

**As a woman, you have to dare to trust yourself, accept that you can't rest on your laurels and overcome prejudices when the opportunity to become a Manager presents itself.**

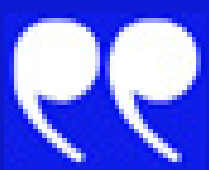

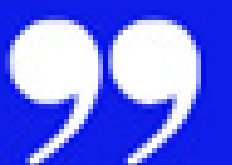

# Hanna

**Customer Support Specialist**

 **Bertin Environics  
Mikkeli (Finland)**

**I coordinate technical assistance and supervise plant maintenance, while managing customer feedback, contracts, orders, invoicing and spare parts deliveries.**

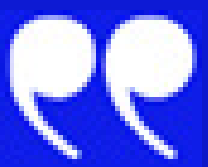

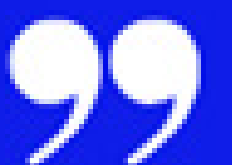

# Christina

Chief Financial Officer

 Bertin Exensor  
Lund (Sweden)

**I navigate at the intersection of finance, strategy, and leadership every day. My role goes beyond the numbers—it's about driving business performance, ensuring compliance across multiple countries, and most importantly, building strong teams and a culture of trust.**

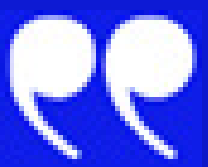

# Petra

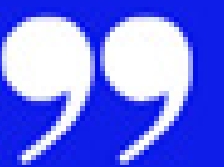

Product Manager

Bertin GmbH  
Frankfurt (Germany)

**I am responsible for the ERMS (Environmental Monitoring System) range of products, primarily used to protect the populations from radiation worldwide. My tasks are varied and interesting. I would like to see many more women interested in a technical-scientific field to strengthen 'women power'.**

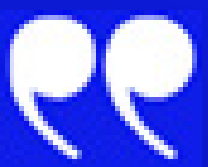

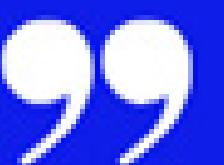

# Sam

**Production Administrator**

 **Bertin Exensor  
Basingstoke (United Kingdom)**

**As a dedicated professional and a working mother, I am balancing my career and family life. Organization, time management and the ability to collaborate with a range of internal and external colleagues, are key skills I use daily in my role. I can leave work at the end of the day feeling accomplished and ready to embrace family life.**

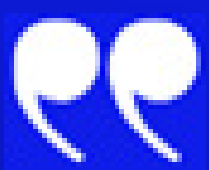

# Lucie

**Sales Specialist**

 **Bertin Corp.  
Rockville (USA)**

**To do my job, you need to combine creativity and reflection to innovate, as well as commitment and a sense of team spirit.**
